

A REPORT ON THE SITUATION OF THE CHILDREN/STUDENTS 2019-2020

This year, there are 26 children from the primary, elementary, high school and higher secondary school, 25 students from our college and two more students who are not in the list sponsored by the Ananda group. We are happy that the least privileged are benefitted by the generosity of the group, all belong to the lowest strata of society. Most of them come from the children or grandchildren of our women in the embroidery and lace-making sections of our Infant Jesus Technical and Educational Institute.

Our school and college starts in the month of June. So they need to pay the fees in the beginning itself.

This year I was knew and money came late. I could see them struggling. Though it was late we managed to distribute immediately. I must thank you for taking effort to communicate. Most of them go for building construction workers. They are thus unable to work. Many of them are daily wage earners and often cannot find work or jobs. In such time who does the household chores, cannot sustain the family.

It is in such pathetic situation that we continue to seek the financial help from the financial help from the members of the Ananda group for the education of our poor children.

It is our prayer and great hope that you will continue to reach out to them so that their future may not only be bright but also learning from your good act of sharing with them what you have, they may also share with their own brothers and sisters and build a better society where people care for each other.

Along with this is the list of sponsored children for the year 2019-2020
